

PART ONE

Lost in Space

SOMEWHERE IN
DEEP SPACE...

COMMANDER ELBEE-DEE-
OH, THIS IS MISSION
CONTROL. PLEASE
ESTABLISH CONTACT.

THIS IS ELBEE-
DEE-OH. I AM
RECEIVING YOUR
TRANSMISSION,
MISSION CONTROL.

YOUR SHUTTLE SHOULD
BE APPROACHING THE
ABANDONED ZYGMAN
VESSEL NOW. DO YOU
HAVE VISUAL CONTACT?

I HAVE VISUAL CONTACT.
THE ZYGMAN VESSEL IS
FLOATING IN SPACE
EXACTLY WHERE THE
CEREBRETRON PREDICTED.

APPROACH WITH CARE
AND LOCK ONTO ITS
OUTER PORTAL.

YOUR VISUAL SIGNAL IS VERY WEAK. PLEASE CONTINUE AUDIO DESCRIPTION AS YOU EXAMINE THE VESSEL, COMMANDER.

FROM THE FINE LAYER OF DUST, IT WOULD APPEAR THE VESSEL HAS BEEN INOPERATIVE FOR SEVERAL WEEKS.

I WOULD SURMISE THAT WHEN THE PLANET ZYGMON WAS DESTROYED, THIS VESSEL AUTOMATICALLY SHUT DOWN.

DO YOUR SCANNERS SHOW ANY LIFE SIGNS?

NEGATIVE.

GOOD. ROBONOVIA WOULD BE CRITICALLY ENDANGERED IF ANY ZYGMONIANS REMAINED ALIVE.

AS WOULD THE REST OF THE GALAXY.

AFFIRMATIVE. PLEASE CONTINUE YOUR SEARCH, COMMANDER.

I AM NOW ON THE MAIN BRIDGE. ALL ONBOARD SYSTEMS ARE OFF-LINE.

WAIT. WHAT'S THIS?

COMMANDER? ELBEE?

ZYGMONIAN RESIDUE. ALL ZYGMONIAN CONTROL SYSTEMS ARE COATED IN IT. NOTHING TO WORRY ABOUT. THEIR PLANET WAS DESTROYED ONLY TWO WEEKS AGO. IT WOULD NOT HAVE HAD ENOUGH TIME TO DECOMPOSE.

CONTINUE
YOUR SEARCH,
COMMANDER.

I AM MOVING
TOWARDS THE
ENGINE CORE.

COMMANDER,
PLEASE
BOOST YOUR
SIGNAL.

COMMANDER
ELBEE-DEE-OH,
PLEASE BOOST
YOUR SIGNAL.

...-ONTROL,
WHAT DID YOU SAY?
I LOST
YOU FOR
A MO-...

ELBEE-DEE-OH?

IS THAT BETTER,
MISSION CONTROL?

THANK YOU,
COMMANDER.
PLEASE
CONTINUE
YOUR
DESCRIPTION.

THE ENGINE
CORE APPEARS
TO BE NORMAL.

WAIT.
THAT'S
STRANGE.
